Samaritan Help Mission is conducting conventional tailoring training for the underprivileged adolescent girls and women of Tikiapara slums regularly for a long time and slowly the same has been upgraded to an **Industrial Skill Development Training cum Income Generation Unit** at present. To do that, **SHM** needed help from the donors to buy industrial sewing machines and we are thankful to **Young Volunteer's Organization** for supporting the **unit** while donating **Rs.136049.55** towards purchase of five (5) **JUKI Industrial Sewing Machines**.

This had certainly helped the underprivileged beneficiaries of Tikiapara slums who come to us to get training on industrial sewing machine and to make them self-reliant. The sewing machines had been installed at our training unit and the poor and underprivileged adolescent girls and women are receiving training on industrial tailoring with the help of them. Apart from training, they are earning their basic livelihood too from this unit.
